## LABELWRITER OVERVIEW

### *The fastest and easiest way to print labels from your PC or Macintosh*

DYMO LabelWriters are purpose-built desktop label machines that are designed to print a single label at a time, or even labels by the hundreds.

With a Dymo LabelWriter you'll never need to fiddle around trying to feed a sheet of labels into your printer just to print a label or two, and you'll never need to worry about costly and messy ink, toner or ribbon supplies - the only consumable you will ever need is LABELS !

Dymo LabelWriters blow away their competition. They print with twice the resolution and up to twice the speed of other desktop label printers and they ship with free labelling software that makes it easy to quickly design labels with fonts, graphics, and barcodes - even digital photos.

Dymo LabelWriters are available for printing from Windows, Macintosh, DOS, UNIX and other Serial (RS-232) enabled systems. You can print labels from all your existing Windows or Mac applications or use Dymo's free labelling software which enables you to create and print labels in a matter of seconds . There's also special add-ins which enable you to print labels direct from Microsoft Word & Outlook, the Palm Desktop, with no retyping necessary.

Some of the more common uses of Dymo LabelWriters are: Addressing of envelopes and packages; Filing and Storage labels; Barcodes for Inventory & Assets; Name Badges labels and tags; media labels (Diskette, CD/DVD, Video, Audio)....

You can create a label for just about anything on a LabelWriter !

#### **HARDWARE FEATURES:**

- : 300dpi print resolution for **laser sharp** quality (203dpi on SE300)
- : Direct thermal printing eliminates messy toner, ink and ribbons
- : No wastage of entire sheets of labels just to print a label or two
- : Extremely small footprint offers flexibility in placement on your desk
- : Smooth and Quiet operation
- : Easy to share over a Windows network
- : Prints Code 39, Code 128, Codabar, UPC A/E, EAN 8/13, EAN 128, ITF-14 and interleaved 2 of 5 barcodes.
- : Includes standard printer drivers for printing from virtually any Windows or Mac application

#### **SOFTWARE FEATURES:**

- : Over 40 built-in label templates + easily design your own
- : Built-in designer enables you to mix fonts, graphics, barcodes - even digital photos - all on the same label
- : Built-in List Manager saves contact details for quick recall/reprint
- : Includes Plug-ins that enable quick printing of labels direct from the main toolbars of Microsoft Word, Outlook, WordPerfect, QuickBooks, the Palm Desktop and more.
- : Database add-in allows merge printing from standard database files
- : AutoFit automatically resizes text for best fit on labels.
- : Prints in portrait or landscape mode.
- : Includes time and date stamping
- : Built-in auto-counter for serialisation applications.

## NEW LABELWRITER MODELS

### LabelWriter 400

The LabelWriter 400 is a fast, high resolution label printer that makes it simple to print address, file folder, video spine and other labels up to 60 mm wide and up to 190mm long. It has 2 new features: first label rewind and label eject system. It comes with easy to use DYMO Label Software, integrates directly with Microsoft Word, Outlook, WordPerfect, Quickbooks, the Palm Desktop and works with all other software through standard print drivers.

- . **cost effective model**
- . print speed **40 address labels per minute**
- . **Windows & Mac compatible**
- . **60 mm wide print head** with max. label size 60x190mm

### LabelWriter 400 Turbo

The labelwriter 400 Turbo is the fastest Labelwriter ever. Handles more than 40 standard label sizes up to 60 mm wide (and 190mm long), including address, shipping, file folder, disk, video, name badge, and many more. It has 2 new features: first label rewind and label eject system. Comes with easy to use DYMO Label Software, integrates directly with Microsoft Word, Outlook, WordPerfect, Quickbooks, the Palm Desktop and works with virtually any Windows or Mac application via standard print drivers.

- . **Speed and versatility**
- . print speed up to **55 address labels per minute**
- . **Windows & Mac compatible**
- . 60mm wide print head with max. label size 60x190mm

### LabelWriter 400 Twin Turbo

The LabelWriter 400 Twin turbo is the same as the Labelwriter 400 Turbo but hold 2 rolls of labels. Handles more than 40 standard label sizes up to 60 mm wide (and 190mm long), including address, shipping, file folder, disk, video, name badge, and many more. It has 2 new features: first label rewind and label eject system. Comes with easy to use DYMO Label Software, integrates directly with Microsoft Word, Outlook, Wordperfect, Quickbooks, the Palm desktop and works with virtually any Windows or Mac application via standard print drivers.

- . **speed and versatility**
- . print speed **up to 55 address labels per minute**
- . **Windows & Mac compatible**
- . **60mm wide print head** with max. label size 60x190mm

### LabelWriter 400 Duo

The LabelWriter 400 Duo is the same as the labelwriter 400 Turbo but can also print D1 tapes (6, 9, 12, 19, 24mm).

Handles more than 40 standard label sizes up to 60 mm wide (and 190mm long), including address, shipping, file folder, disk, video, name badge, and many more. It has 2 new features: first label rewind and label eject system. Comes with easy to use DYMO Label Software, integrates directly with Microsoft Word, Outlook, Wordperfect, Quickbooks, the Palm desktop and works with virtually any Windows or Mac application via standard print drivers.

- . **speed and versatility**
- . print speed **up to 55 address labels per minute**
- . **Windows & Mac compatible**
- . **60mm wide print head** with max. label size 60x190mm

## LABELWRITER MODELS

### LabelWriter SE300

The LabelWriter SE300 enables developers to quickly integrate label printing into applications written in UNIX, DOS and other serial (RS-232) enabled systems. The SE300 connects to any computer or device capable of providing output to a standard ASCII printer. It uses a simple command language that is easily adapted to custom-written applications and comes with 23 internal bar code symbologies and 5 internal fonts.

- . **for software developers and programmers**
- . print speed up to **20 address labels per minute**
- . **DOS, UNIX and Windows**
- . 60mm wide print head with max. label size 60x190mm
